

DEED OF PARTNERSHIP

We, the Mayors of Brno and Godalming

Authorized representatives of our towns,

Convinced we are responding to the deep desire and real needs of our townspeople,

Knowing that today's Western Civilization derives from our old boroughs, and that the spirit of freedom first took shape within the franchises the boroughs managed to obtain,

Considering that the work of history must be continued in a wider world, and that this world will really be humane inasmuch as men will live in freedom in free towns,

ON THIS DAY, WE SOLEMNLY DO PROMISE :

- To maintain permanent links between our town councils, to promote in every domain, exchanges between the citizens in order to develop the living feeling of European fraternity;
- To combine our efforts to the utmost in order to succeed in this necessary undertaking of peace and prosperity : **European Unity.**

Signed,

*The fifth day of May nineteen hundred
eighty five in Brno*

Mayors of Brno and Godalming
